Friday November 2nd : Bits and Pieces Evening 7.30 p.m.
Friday December 7th : The Bob Hodgkins Slide Show 7.30 p.m.
Wednesday December 26th : Boxing Day Run.

Hallo folks and welcome to the autumn 90 NEWSHEET. Is this it? I hear you cry. Are we not supposed to get a decent newsletter with a few articles? I couldn't agree with you more but unless YOU put pen to paper instead of expecting "someone else to do it" what are we to do? Don Paterson has submitted the only article over the last six months and therefore I will save this for the Christmas issue, I've written a bit I will also hang onto, but it is not enough, YOUR participation is vital!

Work at the Club has slackened off a bit during the summer period but workers will be required for Sunday working once we stop running. Projects in hand are sorting out drainage behind the coalstore and workshop; extending, erecting and painting the back fence at the back of the compound, and installing more concrete pillars underneath the track. So feel free to come down and give a hand, and join us for a chat and a cuppa through the winter months.

Public Running; just a reminder for extreme vigilance here and to keep an eye on the track at all times, safety is of paramount importance. The October Traffic Controllers are as follows :
7th A. Tate, 14th P. Clark, 21st D. Randall, 28th R.Stagg.

It only leaves me to say closing date for articles is Sunday December 9th so get cracking!
